

Green Gold Label Program

Introduction

This document includes a list of all endorsed schemes by Green Gold Label (GGL). Endorsed schemes can be used by GGL participants within the GGL scheme as stipulated in GGL standard 1 (COC criteria). This list may be updated if schemes are added or removed.

As GGL aims at meeting national regulatory requirements some schemes might only partially meet national (sustainability) requirements and therefore this is also specified in this list. In those cases limitations or conditions are added to the list below and shall be considered by a Participant when sourcing material covered by such a scheme.

Glossary

See GGL Glossary

Endorsed schemes

Endorsed forest management certification systems

- FSC® (Forest Stewardship Council)
Must be provided with an FSC claim from a supplier with a valid FSC COC or FM/COC certificate
This endorsement is valid until the transfer period ends in the Netherlands for sustainable biomass (SDE+) and the RVO has published an overview of approved certification schemes and this document will be updated accordingly.
- PEFC™ (Programme for the Endorsement of Forest Certification)
Must be provided with a PEFC claim from a supplier with a valid PEFC COC or FM certificate
This endorsement is valid until the transfer period ends in the Netherlands for sustainable biomass (SDE+) and the RVO has published an overview of approved certification schemes and this document will be updated accordingly.

Endorsed forest management controlled certification systems

- FSC Controlled Wood (Forest Stewardship Council®)
Must be provided with an FSC Controlled Wood claim from a supplier with a valid FSC COC or CW/FM certificate
This endorsement is valid until the transfer period ends in the Netherlands for sustainable biomass (SDE+) and the RVO has published an overview of approved certification schemes and this document will be updated accordingly.
- PEFC Controlled Sources (Programme for the Endorsement of Forest Certification™)
Must be provided with a PEFC Controlled Sources claim from a supplier with a valid PEFC COC certificate

GGL 1c. Endorsed schemes

This endorsement is valid until the transfer period ends in the Netherlands for sustainable biomass (SDE+) and the RVO has published an overview of approved certification schemes and this document will be updated accordingly.

Endorsed Agricultural Management Certification systems

- None
